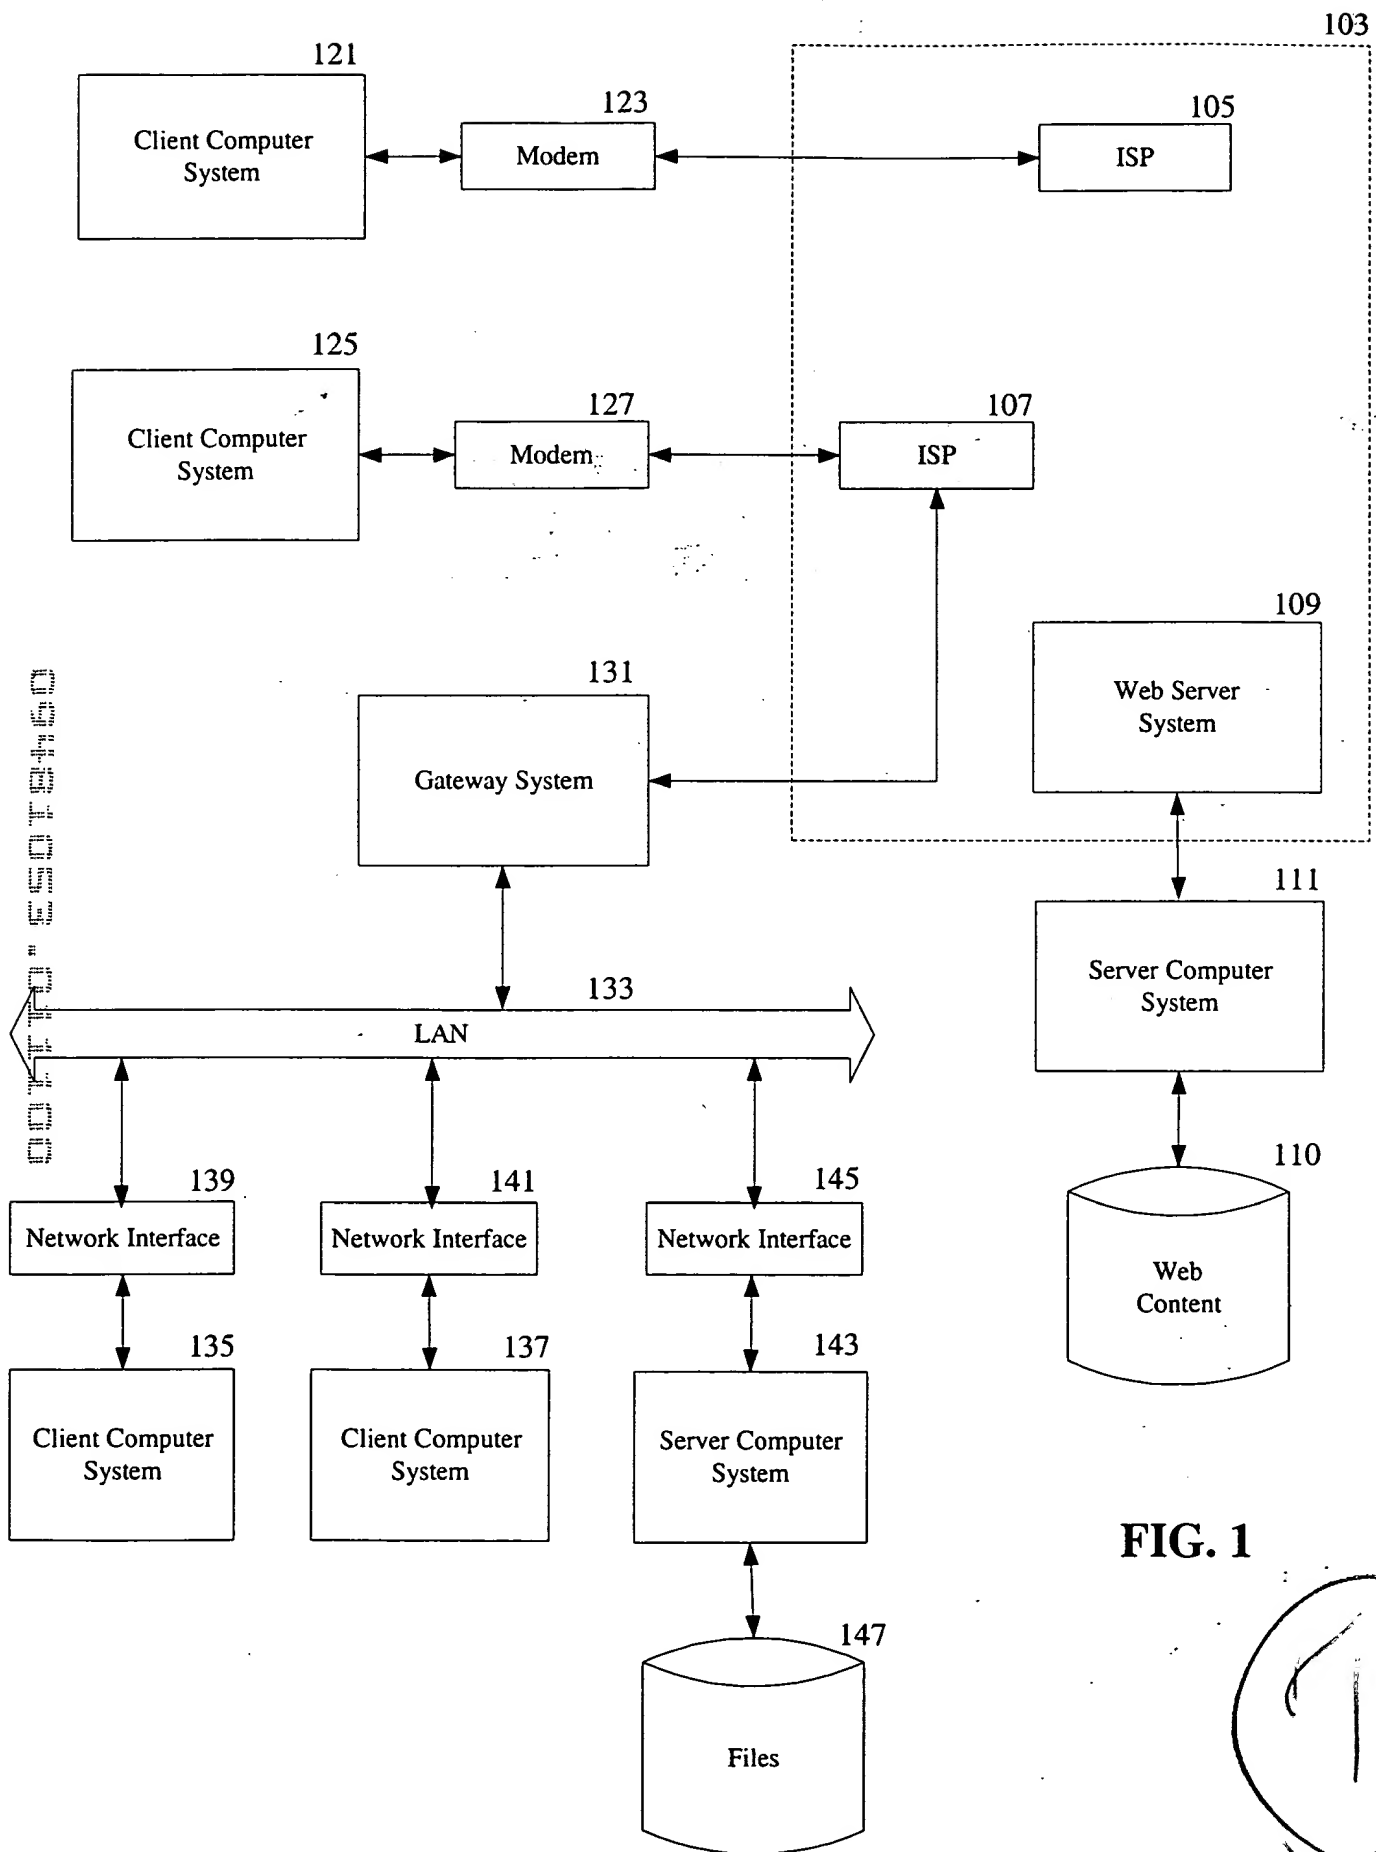

FIG. 1

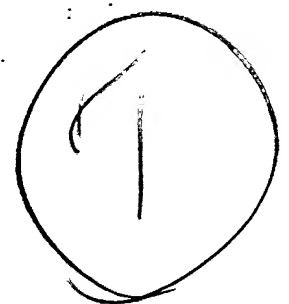

FIG. 2

Diagram illustrating a file scanning system (300). A File (307) is processed by an Anti-virus Program (305). The program sends data (2) to a central block (315) and receives data (3) back. The central block (315) is linked to a stack of memory blocks (309) via dashed lines. The stack is divided into sections 311 and 313. Arrows 1 and 4 show the file path to the program.
